

World Class Cleaning Solutions for

The Aerospace Industry

OEM AND MRO

BHC's line of approved and tested cleaners provide safer, advanced solutions for aerospace manufacturing and maintenance facilities, and are supported by BHC Process Specialists.

Solutions That Deliver

Degreasing of New Parts • Low or No VOC's

Cleaning & Carbon Removal for Heavy-Duty Rebuild • Long Tank Life for Reduced Cost

AquaVantage® PRECISION CLEANERS

AquaVantage aqueous detergents deliver better parts cleaning/degreasing, broad material compatibility and reduced costs. Proven solvent replacement technology for Manufacture (OEM) & Rebuild (MRO) critical parts cleaning.

Immersion/Ultrasonic

AquaVantage 815 GD

The Cleaning Standard in Immersion & Ultrasonic Detergents

- Mildly alkaline solution which cavitates in ultrasonics with unparalleled performance providing a water break free surface.
- Use during the manufacturing or rebuild of Aerospace components in immersion, mildly agitated or ultrasonic cleaning processes.

AquaVantage 815 GD-NF* APE/NPE-Free Alternative

AquaVantage 3887 GD High Performance Spray Wash Detergent

- APE/NPE/VOC-free, mildly alkaline detergent provides exceptional cleaning on a variety of soils with long tank life and simplified tank maintenance.
- Excellent for MRO facilities. Highly effective when used in in-line or cabinet spray wash and highly turbulated cleaning systems, as well as immersion. Can also be used in turbulated immersion systems.

Spray Wash

AquaVantage 1696 GD

Neutral pH, Non-Silicated Spray Wash Detergent

- A neutral pH, non-silicated, non-phosphated, APE/NPE-free non-foaming aqueous degreasing chemistry.
- Ideal for cleaning sensitive metals like cadmium and copper/alloys, plastics and elastomers.
- Can be used in immersion, in-line or cabinet spray wash and highly turbulated immersion cleaning systems.

AquaVantage 1990 GD

The Industry Standard Spray Wash Detergent

- Mildly alkaline solution with excellent particulate removal abilities. Free rinsing.
- Use during the manufacturing or rebuild of Aerospace components in inline or cabinet type spray wash cleaning processes.

AquaVantage 3843 GD

High Performance, Phosphate-Free Immersion & Ultrasonic Detergent

- APE/NPE/VOC-free, non-phosphated solution research-developed to remove straight oils that are difficult to remove.
- A mildly alkaline solution which cavitates in ultrasonics with unparalleled performance.
- Typically used in immersion, highly turbulated or ultrasonic cleaning processes – also non-foaming in spray wash applications.

**Version fulfills requirements for EU/REACH, Canada and other jurisdictions where NPE is restricted.*

SolVantage® METAL PREP SOLVENTS

SolVantage MP 1793

- Multi-purpose wipe, recirculating tank and ambient temperature immersion degreasing solvent. Can be used as a pre-clean to remove heavy greases and oils prior to other degreasing processes.
- Leaves low residue on surfaces for further metal prep. High dielectric strength.

SolVantage SD 1291

- Quick drying multi-purpose RTU wipe solvent for degreasing, replacement of MEK in removal of CIC and waxes. Residue-free.

DOWCLENETM 1601

- High-Performance Modified Alcohol Solvent formulated to meet the high requirements of precision parts cleaning in vacuum vapor degreasing systems.

SolVantage Vapor Solv

- A non-flammable, high performance, precision cleaning solvent designed for vapor degreasing. An azeotropic, fluorinated solvent degreaser, drop-in replacement for n-propyl bromide (nPB), TCE and other vapor degreasing solvents.

PROVEN SOLUTIONS

OUR APPROACH

- BHC's process cleaning solutions have been developed in consideration of your soils, your systems/equipment and your substrates ... without the compromises of an "all-purpose" solution.
- With over 80 years of proven experience, BHC will work with you to develop a distinct cleaning process solution for you and recommend ways to optimize your process.

Let us prove it to you with our Three Step Process:

1. System Health Check
2. Process Prescription
3. Confirmation Trial

“ AquaVantage 815 GD is the product that best degreases and safely removes inks in one step on aircraft aluminum. ”
 ~ A major airframe manufacturer

“ BHC's detergent and custom filtration process significantly extends cleaning tank life and completely eliminates cleaning process waste to drain. ”
 ~ Aerospace subcontractor
