

Separate Series

MODELS #1209-SH WITH SINGLE GENERATOR
THROUGH 3024-SH WITH NEMA12 GENERATOR ENCLOSURE

Portable ultrasonic cleaners offer the convenience of a separate cleaning tank and generator. The cleaning tank can be used on a tabletop or dropped into an existing countertop. The generator can be placed in any convenient location. Tank sizes range from 12"x9" to 30"x24".

STANDARD EQUIPMENT

Immersible Series

IMMERSIBLE PACKAGE / SIX MODEL # I-3024
NEMA12 GENERATOR ENCLOSURE NOT SHOWN

Immersible systems are used to add or increase ultrasonic power to an existing tank. These stainless steel units feature all-welded construction and are available for bottom, side, or end mounting. Sizes range from 12"x9" to 30"x24".

Large Series MODEL #L-5036

This model features high-powered ultrasonics coupled with precision fabricated stainless steel tanks for large capacity cleaning requirements. Tank sizes range from 36"x25" to 54"x50". Matching rinse and dry units are also available for a complete wash, rinse, and dry operation.
